25X1A

MEMORANDUM FOR:

SUBJECT

ARGO Requirements

- 1. Reference the attached memorandum from Dr. Martin with notes on the July ARGO meeting and briefing. The tone of the memorandum might lead one to believe will provide considerably more coverage for routine ARGO requirements than has been possible in the past. Although it probably will provide a higher level of satisfaction of some ARGO requirements, I believe a degree of caution and constraint on its application as an answer to a wide range of ARGO requirements.
- 2. The briefing on system capabilities is certainly in order, however, I would recommend you attend this meeting, if at all possible, to maintain realism in the requirements area.

Approved For Release 2002/01/09: CIA-RDP79B01709A002600020015-7
I feel the same impression could be left with other ARGO members
at the 28 July briefing and COMIREX should temper this impression to some
extent while still recognizing the increased capabilities
to contribute to ARGO requirements.
